This Can't be "For Real!"

It was December and I was at the P.X. on Fort Carson when I met two ladies. Their names were Rose and Daisy. It was Sister Rose who approached me first. She said she understood how hard it was to shop for your children around the holidays with no money.

As she talked, I thought to myself, my friend and I are being pranked. Things like this don't "just happen" to people. In fact before Sister Rose walked up, my friend and I were just having a conversation about shopping. We were just saying to ourselves, "Wouldn't it be nice to have someone just give us \$100." As Sister Rose talked, I thought about what she was saying, but I was afraid to respond.

By the time the night was done, Sister Rose had given each of us enough money to buy the items that our children needed AND wanted for Christmas. Sister Rose and Daisy reached out and I felt like they were my friends. It didn't feel like someone was giving me a hand out. God heard my prayer for the things my children needed by sending these special angels my way. I'm glad it was for real!

My faith is renewed! There's truly power in prayer and believing in Christ for what you need.

This was No Joke!

I first met Pastor Rose and Daisy at the Ft Carson Post Exchange. They came up to me and a friend of mine and told us to fill up our shopping carts! They told us that wanted to give us a wonderful Christmas and that they would pay for everything!

My friend Kara and I looked at each other, and then we looked around for cameras because we thought we were on TV. I asked her, "Are you serious?" She said, "Yes, yes this is something I have to do".

It took us a very long time to actually start putting things in the basket. We thought this was either a joke or that they would be gone by the time we got to the register to check out. But neither of those things happened.

We were so thankful to be able to give our kids a Christmas! We owe it all to God and Pastor Rose. The kindness shown that day was the reason why I started going back to church. And now God has really blessed me with a great pastor. He has given me strength to go to church every week. I feel very strong now and I could not have done it without God in my life. One thing that Sister Daisy told me that day we met at the PX was once I've heard Pastor Rose preach, I won't want to leave. And she was right!
